## Install Five New Fire Alarm Boxes

Installation of five new fire alarm boxes was made this week by the Albany Fire Department, bringing added fire protection to several city districts long considered inadequately protected by the department.

Boxes were installed at the following street corners: Box 13, Garfield and Stannage Avenues; Box 24, Marin and Evelyn Avenues; Box 53, Garfield and Santa Fe Avenues; Box 56, Washington and Pomona Avenues; Box 54, Washington and San Carlos Avenues.

The addition of the new boxes, it was said, will not only make it easier for residents of the districts to report fires, but will aid the fire department to reach the scene of the alarm more quickly and eliminate any confusion as to the district the fire is located in.

## Issue Warning

A campaign to help save 56 lives in California over July 4th was launched today by city fire and police departments in an attempt to give Albany a clear record in accidents over the holiday.

Statistics presented by department heads showed that last year's July 4th traffic and fire fatalities reached the number 56 in this state. All available firemen and police officers will be on duty over the week-end, it was said, to cooperate with the public in reduction of death and injuries.

Warning the public against the hazard of fireworks and their misuse, Fire Chief Carl Ahlgren today issued the following warning:

"Experience shows that every observance of July 4 is accompanied by its complement of disasters resulting from highway tragedies, fireworks accidents, and drownings. I urge that every citizen do his part to guard against the disasters which have been enumerated to the end that the tragedy toll may be greatly reduced or eliminated.

"I will include here a number of safety rules, observance of which can do much toward a safe and sane July 4.

"Don't throw lighted fireworks on roof, awnings, or combustibles.  
"Don't hold lighted firecrackers in the hand.  
"Don't throw firecrackers at anyone.  
"Don't use matches to light fireworks, use punks.  
"Don't throw fireworks in passing vehicles.  
"Don't forget to be careful and help make the anniversary of this July 4th a safe one.

CARL AHLGREN,  
Chief of Fire Department."

## Show Growth of City in Report

Evidence of Albany's constant growth was seen today in the results of City Engineer H. I. Dygert's report for the month of June.

According to permits issued by the City Bureau of Public Works, buildings estimated to reach a total cost of \$70,581 were built or are under construction in the city. This figure is more than \$11,000 higher than the figure for June, 1937.

Total buildings constructed during the year reached an estimated cost of \$232,753, according to the figures. However, the amount was approximately \$28,000 lower than construction for the same period last year.

## Police Fines Reach \$1350

Collecting the highest total of fines recorded since the first of the year, June totals for police collections reached the \$1350 mark today as the month came to a close.

Nearly redoubling last week's total, \$42 was collected this week, according to Mrs. Myrtle MacLane, taking in during the one court session this week, held Wednesday evening.

With 39 citations scheduled for the evening, the police court files were cleared of one drunk driving, and two reckless driving cases Wednesday evening, by Judge L. L. Kennon of Emeryville, who sat on the Albany bench in place of Judge L. J. Hardie, now visiting in Fort Bragg.

Harry Allen, 724 10th Street, Oakland, yesterday began a 125-day jail term which he took in lieu of a \$250 fine for driving while drunk. Allen was arrested last week by Police Chief Lloyd Jester and booked with two companions who were released yesterday after serving five days in the Albany jail.

Refusing to sign a ticket charging him with driving on the wrong side of the street, Charles J. Seeley, 5925 Herzog Street, Oakland, Wednesday evening forfeited \$25 bail. He was cited by Officer K. Nickerson.

## Honor Murphy at Farewell Dinner

As a farewell gesture to Gerald J. Murphy, 916 Ordway Street, president of the Murphy Chevrolet Company, all employees of the company assembled Tuesday evening at the Maccabee Temple for a dinner, in appreciation of his services to the company.

Prepared especially for the occasion was an Italian dinner, cooked by Mrs. Rosa Villa. Later, the group adjourned to the Kona Club in El Cerrito where the evening was spent at dancing.

Out onto the highways, to picnic grounds, rodeos, county fairs, or just for a ride will go pleasure-seeking Albanyites celebrating the Fourth of July this week-end.

Although no celebrations have been scheduled for Albany, nearby cities are offering celebrations for Independence Day. In Berkeley, festivities will begin today with a patriotic luncheon held by the Berkeley Women's City Club, with Albany represented by delegations from all service clubs. Saturday, the National Model Yacht races will be held on the East Bay Highway, while Monday, the Fourth of July, will see elaborate fireworks displays and outdoor sports in nearby city and county parks.

## BUYS COMPANY

## Gerald Murphy Sells Company To Take Trip

Closing a two-and-a-half year stay in this city during which time he has taken an active part in all civic functions, Gerald J. Murphy, president and manager of the Murphy Chevrolet Company this week announced sale of his interest in the company to A. D. Hackim.

Murphy, his wife and family, will leave Albany next week for an extended vacation to be spent traveling about California. Murphy was well known in Albany for his activities in the Chamber of Commerce, Men's Breakfast Club, the Fine Arts and Rotary Clubs.

## Miss Charlotte MacGregor Weds Palo Alto Here

With only immediate family and relatives of the family present, Miss Charlotte MacGregor, daughter of Mr. and Mrs. C. M. MacGregor, of Albany, Wednesday was joined in marriage with Professor Theodore H. Boggs, of Palo Alto, at the MacGregor home on Highland Avenue in Piedmont.

Mrs. Boggs is well known in Albany as her father's associate in his real estate business, office of which are on Solano Avenue. She is a graduate of the University of California, becoming well known while there for her activities in the law school.

Boggs is a professor of economics at Stanford University in Palo Alto where the couple will make their home.

The bride's father is prominent in Albany for his real estate interests and has long been known as the man who built the greater portion of the city.

## Albany School System Given \$28,350 Federal WPA Grant

**Funds to Go Toward New \$60,000 Fourth Unit Of Albany High School; Contrast System With School Facilities of 1908**

Carrying on with their "pay as you go" plan for construction of Albany's school system, the Albany School Board this week gave the "go" signal to construction of a \$60,000 fourth unit to Albany High School with receipt of a \$28,350 Federal PWA grant.

According to Superintendent of Schools Allen Keim, plans and specifications for the construction were submitted and approved both by the school board and Federal government several months ago but information was withheld regarding the building until the grant of funds had been made.

The fourth of five proposed units, this new section of the building will contain a large and modern printing shop, a nurse's clinic, modernized library and rooms for rest period use. It will be constructed immediately adjacent to the third unit and will be two stories in height.

The School Board recently completed installation of physics and chemistry laboratories in the third unit of the school which also contains offices, class-rooms and a large cafeteria.

It was just thirty years ago that some 40 Ocean View boys and girls were hustled together from all corners of the city to form a student body in a building that has gone down in Albany history as its most important structure.

The class met in Miller's Barn, an old wooden shed, donated to the city as its only meeting house simply because there was no other building in the district which would serve the purpose. So besides being Ocean View's School No. 1, Miller's Barn was also Council Chamber, mayor's office, dance hall and general public assembly place.

A goodly portion of Albany's older citizens can remember Miller's Barn. Rough-hewn and spacious, it stood just north of the Miller home near the Albany-El Cerrito line where it had been moved following donation of the building to the city by Joseph Miller.

The Barn came into use as a public building in 1908 when the question of halting garbage dumping in this portion of San Francisco Bay brought members of the township together for discussion of the question. Legal counsel was sought and the only answer to their problem was incorporation. Ocean View became a city.

A city must have a school and as a newly born community, Ocean View's first civic move was to set up a school district with Miller's Barn as its building, install ten desks and seats, and secure a teacher and pupils.

The matter of the pupils caused some trouble at first. Ocean View could boast of but six pupils for the school, so following a short period during which part of the desks remained unoccupied, portions of Berkeley, El Cerrito and other nearby communities were taken into the school to form the first full system of grades, a picture of which is shown on page five of this issue.

Combining a vacation trip with business, Judge and Mrs. L. J. Hardie were reported this week in Fort Bragg. While there, Judge Hardie will participate in I.O.O.F. ceremonies. He is Grand Master of the order.

## Council Will Seek Action on WPA Workers

**To Ask for List of Workers; Police Fund Granted**

In a move to obtain action on a long recurrent problem, the Albany City Council Monday passed a resolution empowering Mayor O. C. Yenne to communicate with the district WPA headquarters for information on local placement of Albany WPA workers.

According to the information placed before the Council, a petition had previously been filed asking for employment of Albany men in the city, but had been disregarded by the WPA headquarters.

Included with the Mayor's communication will be a request for a list of Albany WPA workers which will be sent direct to the administration personal headquarters, it was said.

Provision was made during the Monday evening meeting of the Council to grant a "petty cash fund" to Chief of Police Lloyd Jester for emergency use. The fund, it was said, will be used for transportation of prisoners to other cities to answer charges.

The City Council voted to turn over a donation of \$100 to the Albany Recreational Department to be used by the department camp for underprivileged children.

The ordinance rezoning three lots in the Cerrito tract to permit construction of a duplex, was given final reading Monday night and was passed to print. Construction on the building will begin immediately, it was announced.

Application of Nick Martino, for permit to sell fireworks, was approved and granted during the meeting.

## More Than 100 Attend Rally Here Monday

With more than 100 prospective campers and their parents present, members of the Albany YMCA held a camp rally Monday evening in the YMCA building.

Enrolled as new members of the "Y" camp were Max Ettingoff, Gloria Rames, Vera Wilson, and Edna Townsend.

Included on the evening's program were talks by camp directors and members who spoke on camp activities and aims. They were Van Moore, former Gualala boys camper; Dan Watts, Gualala Camp leader; Mrs. C. Stam, director of Wasata Girls' Camp, operated by the San Francisco YMCA; C. E. Foster, YMCA secretary.

Accepted as girls' camp leader was Mrs. Ada Townsend who will be assisted by Miss Margaret Dougherty.

Refreshments were served at the close of the evening by the Roberto Fountain. Loudspeaker service was donated by the Ted Williams Radio Service.

Members of the rally committee were Jerry O'Gorman, chairman; Cynthia Dygert, Margaret Dougherty, Bill Dawson, Frank Stenberg, and Judson Dygert.

Due to the fine response of members using the Albany YMCA gymnasium, the time for use has been extended on Monday and Thursday so that they may use the building from 3:30 to 10 on those evenings.

The decision was made at a meeting of the "Y" staff Tuesday afternoon, with Secretary C. E. Foster presiding and Recreation Leaders Ted Wiley, Mrs. Nina Hansen, Bob Asher and Bill Taylor in attendance.

Further organization of gymnasium facilities will be made as soon as the groups using the building can select representatives, it was announced.

Miss Ruth Evelyn Douglas, nine-year-old daughter of Mr. and Mrs. Leslie Douglas, 923 Key Route Blvd., left recently for a visit with her grandparents, Mr. and Mrs. H. C. Douglas at Galt, Calif. Miss Douglas recently won second prize in the Oakland Post-Enquirer Father's Day contest.

Knox, Albany High School Parent-Teacher Association; Mrs. James Ellis, N. D. G. W.; and Mrs. Beatrice Raymond, member of the hostess committee for the event and a representative of the Chamber of Commerce.

## Plan Addition To City Hall

Providing office space for the chief of police and city officials, plans are being drawn by the city engineering department to enlarge the second story of the city hall, it was announced at the Monday night meeting of the City Council.

The addition, it was said, will contain squad rooms for the police department, an office for the chief of police, and offices for members of the council. The upper floor of the building is at present occupied by the public library.

Specifications for the addition are now being drawn up by the city engineering department and work will begin on the building within the next three weeks, it was said.

## Dog Licenses Expire June 30

## Early Albany Days Related By Pioneer

He's a man that can remember when Albany was just a rolling wheatfield. That was 47 years ago.

And he can remember when the one and only method of reaching that wheatfield was by traveling from Berkeley to Christiana station and then walking the remaining distance through the wheat to the only building in the future city of Albany.

All this is on good authority because it came directly from one of the city's first citizens, Edward Hageman, 907 Madison Street. He can't be called the very first citizen because his father, Edward Hageman, Sr., came here a number of years before and built the first building, a shanty near what is now known as Cordorices Creek.

Standing in the garden of his hillside home, Hageman pointed across the valley to the Berkeley hills. "See all those houses?" he said. "Well, less than 30 years ago I used to hunt rabbits and quail up there. Just try it now. I'd be arrested for disturbing the peace."

Then he went on to tell of the days when he could stand in the doorway of his house and count the buildings on the far side of the valley on his fingers. "That wasn't so long ago either. But you couldn't do it now," he said. "It's the fastest growing community I ever saw."

Starting to school about eight years before Albany's first community building, Miller's Barn was in use as a school, Hageman attended the Berkeley school at a spot where 7th and Hearst intersect now, walking nearly all the way into town because the narrow-gauge railway, at that time the only mode of transportation to Berkeley from Ocean View, hadn't been extended entirely into the district. This old building was later to become a city warehouse.

Soon after, the Columbus school was built but by now, instead of trudging through muddy streets to remote railway stations, Hageman was brought within easy distance of Berkeley by extension of the narrow-gauge tracks into this district and connection with the cable car. This transportation was augmented by a local Southern Pacific train from Berkeley to Berryman station on the hill, leaving but a short walk of about half-a-mile down to the city.

Along about 1908, when the city of Ocean View as it was then called, began its phenomenal growth toward its present size, the Hageman's felt that their little house in the flat was going to be inadequate for the city to come (Albany boasted of four houses at the time), so they purchased a piece of property on the side of Albany hill, then known as McKeever's hill, built a house on it and settled down to become one of Albany's oldest families.

Besides Edward Hageman, members of the family still living in Albany include his mother, Mrs. Edward Hage-

## Bronko Nagurski To Wrestle Friday

So much has already been said about Bronko Nagurski, there is little left to tell. Everybody knows the following:

He is the heavyweight wrestling champion of the world;

He has lost only one match in his life (among thousands);

He is an "All-American" football star;

He is six feet, three, weighs 245 pounds;

He will stake his title against any opponent in the game.

At the beginning of a match, Bronko works slowly. A clean, orthodox wrestler, he has never been known to employ a foul or dirty hold unless the same tactics were first applied to him. Usually he lets his opponent set the pace. As a rule, they batter him all over the ring until they have exhausted every wrestling trick they know. Throughout these attacks, Bronko chooses always to remain on the defensive.

Then, satisfied that he can "take it," and that his opponent cannot down him, he uncorks his own gymnastic armament.

Merely to witness his display of ring science, strength, and perfect co-ordination of muscular control is a treat in itself. His services being in such demand all over the world, he can never settle very long in one locality. His Friday night's appearance at the Oakland auditorium may be the only chance Eastbay fans will have to see him in action for another year.

The opponent selected for him this time will be "Big Ben" Morgan, a 335-pound giant. The match will have a two hour time limit, two out of three falls deciding a winner. Nagurski's title is at stake.

## THIS INDEPENDENCE DAY

When a little nation of less than two and one-half million souls bravely shook its fist in the face of its parent country 162 years ago, these United States gave the world first proof America had come of age.

From a fledgling among the nations of the earth, this nation more than a century and a half later finds itself the foremost ranking power in the world, favored above all others in the vastness of its resources, in the sturdiness of its democratic traditions, in its freedom from the ills which are today wracking nations abroad.

Endowed as America is with all these blessings, the celebration of this Fourth of July turns all thoughts upon one attribute in particular—the ideal of government which had its flowering in 1776.

The vivid declaration of principles set forth by Jefferson, and speedily adopted by Congress, struck the Old World with startling, explosive force. There was boldness, confidence, and revolutionary fervor in the credo of the young nation which dared to affirm that a government exists for the happiness of the people, that it derives its powers not from on high, nor from the whim of a monarch, but solely from the consent of the governed.

Since that memorable day in our history, governments elsewhere have risen to power and fallen, revolutions have shattered monarchies and established worse tyrannies in their stead, but the declaration which set America on its course of destiny over a century and a half ago is the same declaration to which America voices allegiance today.

The high ideals of government that document set forth are not eternal. They are not imperishable. They will survive only so long as they are guarded and cherished. Let this Independence Day be a significant and worthy reminder of that fact to all of us!

IT'S THE STUDENT BODY OF 1908

Do you remember the faces in the above picture? It's the student body of 1908 which met as one of the first school classes in Albany in Miller's Barn on the Albany-El Cerrito city line. As identified by the owner of the photo, Tony Lindquist, and several other Albany citizens, those pictured above are:

Front row, left to right: Eleanor Bergesen, Loretta Galvin, Laura Sedober, Wanda Ballard, Genevieve Beck, Christie Hageman. Second Row: Bergesen, Lucille Plaehn, Alma Stieglitz, Esther Carlson, Anita Kruger, Oscar Carlson, Edward Zapski. Third row: Tony Lindquist, Olga Lindstrom, Marie Lindstrom, Anderson, Eleanor Lindquist, Rocco. Fourth row: Mary Ramsey, Laura Perry, Marie, Ralph Plaehn, Gilbert Nielson, Smoth, Raymond Higuerra, Charles Zapski. Last row: Lillian Lindquist, Annie Ambronesko, James Griffin.

NOW IS THE TIME

Hundreds of thousands of youngsters pour forth from the classrooms this month, some to work, some to hunt work, and others to frolic the summer long under the beneficent California sun.

Parents can be justly grateful for the abundance of open country in California, the sweeping landscapes, the clean air of the mountain and sea. The dark blight of over-crowded cities of the industrial East where children's recreation grounds are all too often nothing but sidewalks and crowded streets, are thankfully far removed from these Western slopes. May they ever remain so!

But the blight of summertime's most common tragedy does strike us here in the West as in the East, and in too many California homes every year you will find new evidence to that fact.

"Death—by drowning" is again moving into the headlines as thousands of vacationing youngsters plunge lustily—and oftentimes ignorantly!—into the water for that cooling swim.

Now is the time for every youngster to learn to swim! Better that his parents undertake to see that he receives instruction than leave him to be egged on by his scornful playmates into risking his life with a foolish display of bravery.

Summertime brings no arithmetic lessons, but every wise parent will see to it that summertime brings swimming lessons to every untrained youngster!

Cerrito Theatre To Open "First Hundred Years"

A capacity house greeted the June finals of the new Cerrito Theater amateur hour last night at 8:30 when the program was broadcast from the stage over KRE. General manager, Al Sonntag, who is also the master of ceremonies, announces that this is becoming one of the most popular events at the Cerrito Theatre.

Tonight will conclude the Stooges and a large cast in the hit musical, "Start Cheering", and Wayne Morris, the film fighter who beat Maxie Rosenbloom in his last picture — "Love, Honor and Behave."

Opening tomorrow, for Saturday only, is the first showing of the advance 1939 model love story — and its swell, "The First Hundred Years" starring Robt. Montgomery and Virginia Bruce, it'll give every young couple, married or hoping-to-be, a million laughs, a flock of heart throbs and a rousing good time. Sharing the program is a grand murder mystery, that is said to be full of excitement and thrills, "The Jury's Secret," with Fay Wray and Kent Taylor.

Ten-O-Win is still attracting hundreds on Saturday and Sunday nights, and the ladies are still avidly collecting their beautiful petit point Harker Hot Ovenware every Tuesday night.

The kiddies matinee tomorrow will consist of two features, 3 Stooges in "Start Cheering" and the "Jury's Secret," also "Treasure Island" and two cartoons.

Hartley's Add New Attractions

Inviting the public to take advantage of their facilities, Hartley's Department Store, 1423 Solano Avenue, announce new improvements to their store and additions to all departments.

Under their new policy F. E. Hartley, owner of the store, announced this week that the concern will meet competition on any article in the store and will not be undersold by anyone.

Included in newer improvements to the store is a ladies rest room and lounge now open to the public. Newest department is the Mrs. Days Baby Shoes and Vanta Baby Goods, a line just taken up by the store.

It is also announced that with the addition of Mojudo hosiery to the store's line, a hosiery club has been formed with every 13th pair being given free. Hartley's give and redeem Merchants Gold Stamps.

Miss Althea Hard, 1028 Evelyn Avenue, will return next week from a two weeks vacation trip spent in San Diego where she is visiting with her brother and his wife, Mr. and Mrs. W. A. Hard. Hard is a chief petty officer connected with the San Diego Naval base. Miss Hard is incoming president of the Albany chapter, NDGW.

Investors Demand Safety for Savings

The memory of the "Depression Times," the "Bank Holidays," and the more recent "Recession," has caused the present day investor of surplus funds and of hard earned savings from wages and salaries to be cautious as to where he may place them; he wants a high yield; he wants them available when needed, and he wants them always "depreciation proof."

According to Mr. Cyril C. Lotz, president of the Albany Federal Savings and Loan Association, this security and freedom from worry, high yield, and availability, is given by the Federal Savings and Loan Associations operating under a Federal Charter issued by the United States Government through the Federal Home Loan Bank Board. All such associations are supervised and examined regularly by auditors working directly out of Washington.

Mr. Lotz further states that all savings and investment accounts are insured up to \$5,000 each by the Federal Savings and Loan Insurance Corporation, an instrumentality of the United States Government; are exempt from attachment and or execution up to \$1,000 each, and are exempt from the normal income taxes. This depreciation proof security with a current yield of 4 per cent has been the reason for the great growth of the Federals in the past few years.

The directors and officers of the Albany Federal Savings and Loan Association are all well known in Albany, and consist of: Cyril C. Lotz, president; Elsie C. Green, first vice-president; Joseph M. Villa, second vice-president; H. W. Brewer, Secretary-treasurer; Frederick L. R. Confer, D. L. Lotz, George W. Foster, John V. Barnes and Beatrice Raymond.

Mrs. Emily Brown and children of 930 Cornell Avenue are reported spending their vacation in Santa Cruz.

Fifty-six boys and girls left the Cornell School Monday morning bound for the Albany Recreation Department summer camp at Russelman Park with an equal number signed up for the next trip scheduled July 4th. The group will replace those who are spending one week at the camp.

Among activities listed on the camp schedule are: Campfire singing, archery, volleyball, paddle tennis, nature study, hikes, swimming and astronomy.

For information about the remainder of the camp season, call at the Albany Recreation Department, 850 Masonic Avenue, or phone Thornwall 5704. The next bus for camp will leave the Cornell School Monday, July 4, at 9 a. m.

On their second day of encampment, 17 boys and girls passed the Red Cross beginners test while seven others passed preliminary examinations toward the final tests scheduled for July 2, when an examiner will visit the Mt. Diablo camp site.

Passing swimmers tests were Richard Hickman, Lee Stanford, Stanley Norton, Florence Shimmel, Ernestine Hampton, Leah Walters, and Bob Wann.

Beginners tests: Jack Verneer, Luther Burlingame, David Morris, Betty Menefee, Floyd Fisher, Frank Taylor, Audrey Dahlen, Ed Fisher, Jack and Jerry Smythe.

Activities at Albany "Y" And Community Center (An Agency of the Berkeley Community Chest)

In addition to playing their regular league games the Zephyrettes are scheduled to play exhibition games in Alameda, Oakland, Berkeley and Crockett this week.

The Alameda game will be played against the Chapel of The Oaks. The Berkeley games will be played against the strong A. G. Spaulding girls. The Crockett game will be played against the undefeated Caletti Service Girls. As yet the Oakland team has not as yet been selected.

The Zephyrettes are now tied for second place and are facing a hard schedule for the rest of the season. The team has won 8 and lost 4 games to date. The league games have been changed from Wednesday nights to Monday nights at Richmond and Thursday nights at James Kenny Park in Berkeley.

The lineup — L. McCormick, SF; M. Kreider, IB; D. Bosworth, 2B; J. Dunn, 3B; E. Van Hagan, SS; L. Johnson, LF; C. Alvis, CF; E. Wiley, RF; F. Young, P; Subs, L. Girard, D.

Lee, D. Dutro, D. Geddis, D. Whitney, M. Marrozza, S. Gerletti, B. Hunter.

ALBANY "Y" TO HAVE PROGRAM The Summer program is beginning to get under way with free swimming and gym activities. Softball games, hikes and a complete gym schedule has been posted in the "Y". Other activities are to be started as soon as details can be worked out.

Smith is a past president of the San Francisco chapter of the association.

Scholarship application of Frances Norma Robinson of Albany to the University of California was approved this week by the University Board of Regents.

## GO FOURTH — IN SAFETY!

Thousands of motorists are taking to the highways for the double holiday over the Fourth of July.

Let's make it a safe and sane Fourth on the road!

Let's exercise an added bit of courtesy, season our driving with an added bit of patience, an extra ounce of caution. Surely that is small enough payment to ensure our lives, and those of other people, with protection against traffic tragedies. Let's drive carefully and come back alive!

There's grim humor to the report that the War of the Revolution resulted in the death of 83,340 persons. Of these, 4040 died in battle. The remainder were killed celebrating the victory during the last 154 years.

This year's traffic death rate has been markedly lower thus far than last year's. Let's continue the good work and go Fourth — in safety!

## WHY MEN FIGHT

In Japan, munitions makers have been battered grossly by tax burdens and the stupendous costs of the campaign in China, but that isn't stopping the war. France has proceeded to take the profits out of the next war by nationalizing her munitions industry, yet she is re-arming feverishly against an oncoming storm of violence. Removing the profits from war to safeguard people against munitions makers' propaganda is by no means enough to ensure peace. The best piece of propaganda turned out by the World War, as far as whipping up American hospitality toward Germany, was the sinking of the Lusitania, and not any poster placards. Certainly the American soldier received little personal profit from the World War, but he fought anyway. Taking the cash cash profit out of war may prove helpful, but operating on an infected toe never cured heart disease. Let the U. S. Senate Military Affairs Committee next try to find out what it is that makes men want to fight. The

## Dorothea Lee Library Will Move Location

Announced this week by Mrs. Bobbie Burns, owner, the Dorothea Lee Circulating Library will be moved from its present location at 1055 Solano Avenue, to the office of the MacDonald Realty Company, 904 San Pablo Avenue.

Moving will take place during the Fourth of July holiday, Mrs. Burns said, in order that customers will not be inconvenienced. The library is composed of several thousand volumes with a continued service of new books.

answer to that would give us a better antidote to cure war-making!

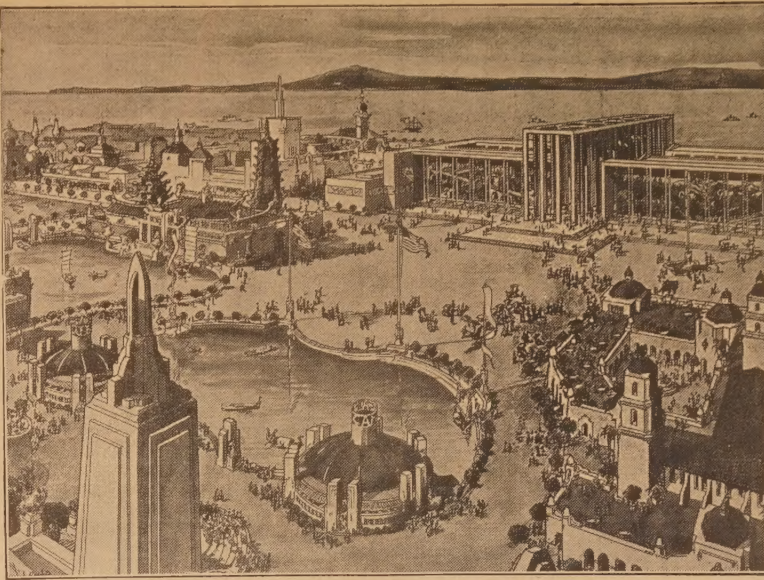

## NOTE TO BUSINESSMEN

Up in Vancouver, B. C., the unemployed have been burdening city officials with a severe headache. On May 20th, 700 of them pitched camp in the post-office and civic art gallery, determined to sit out their demands via the sit-down route. Last we heard they were still there. Now a sit-down carries a message straight to businessmen, merchants, and enterprises. A few of them — and it's this minority we have in mind in writing this — may be surprised to learn that we have sit-downs right here in this community. A customer entering one of our local stores the other day, observed a clerk contentedly slumped over the counter. "Is this a sit-down?" the worried customer asked. "No," answered the clerk, slowly rising from her comfortable position, "the boss merely forgot to advertise." Sit-downs aren't only in the news from Vancouver. They are potential, and actual, threats everywhere when merchants forget that a good way of making business sit up — instead of sitting down — is to tell the world about their bargains!

## WINGED GIANT

Shades of Jules Verne! Last week an aircraft manufacturing company in Seattle launched a plane weighing 41 tons, equipped with four engines, and capable of carrying 74 passengers — the largest airship ever built in America. Its builders are good optimists, for they created that winged giant not to make news, but to make a reasonable profit. Will a 74-passenger pay-load become a reality? The public must answer that. The engineers' task is done.

## Colorful View of 1939 World's Fair on S. F. Bay

Here nations of the world will display their treasures at the 1939 Golden Gate International Exposition on Treasure Island in San Francisco Bay. In center of this sketch by Artist Lewis Rothe is the Court of the Nation on which faces the \$1,500,000 Federal Building (in background) and a beautiful lagoon. At right, State of California buildings and at left, some of the buildings being erected by the Pacific.

## Weekend Games See Wildcats, Oakland on Top

Ring down the curtain on the first half of their league, Albany Softball club Sunday fought nearly one for one in an effort to boost league standings before the second half of the league goes under way.

At University Park, the Northbrae Church club was down 25-1 before a tough set of W'cat moundsmen who allowed three hits and the one run. In an earlier game, the Recreation Leaders downed Frank's 663 softballers 7-4 with Norman Riggs chucking for the Recreation boys.

Taking the short end of a 5-4 score, the Lennox Photo Studio club fell before the Oakland Warehousemen at Memorial Park while Bob's Boys took a win by default from Cochran and Celli.

Meanwhile, the Albany Merchants at University Park went on to their fifth successive win by downing the California Yellowjackets from Berkeley 3 to 1.

## Phi Alpha Omega Holds Initiation

Initiating two new members, members of the Phi Alpha Omega fraternity met Monday evening, holding their ceremonies in Albany and Richmond.

New members taken into the fraternity were Robert McNeil and Gene Bystrom.

Fraternity members present included Tom Webster, Freshman Captain, in charge of initiation; Alden "Slim" Thorngood, Ray Matthews, Sam Jaynes, Bill Page, Ernest and Earl Cheek and Gordon Williams.

Mrs. D. A. Chelemados and sons, George and Phydias, recently returned to their home, 910 Key Route Boulevard, after vacationing at the Santa Cruz mountain home of the former's sister, Mrs. Fred Lohen.

Playoff of the tie between the Berkeley Wildcats and the Oakland Warehousemen will take place following the second half of the Albany Softball league which will open July 10.

## Douglas, Family On Vacation Trip

Mr. and Mrs. O. E. Douglas and family, 602 Spokane Avenue left yesterday for Grants Pass and other Oregon points for a two weeks vacation.

While away, Walter Harper will be in charge of the Douglas Pharmacy at the corner of San Pablo and Solano Avenues.

Douglas recently purchased a C. M. McGregor home on Orinda Street.

Mr. and Mrs. F. C. Sartor of 999 San Pablo Avenue are receiving congratulations upon the birth of a son at the Richmond Cottage Hospital on Tuesday, June 21. The newcomer has been named Gerald Dean.

Miss Anne Alger, who recently received a diploma from Oakland Technical High School, was hostess at a graduation party held last Saturday evening at the home of her parents, Major and Mrs. W. E. Alger, 1947 Marin Avenue.

## Argentina, Uruguay to Build At S. F. Fair

Argentina and Uruguay will erect their own buildings on Treasure Island for the 1939 Golden Gate International Exposition. Argentina will spend between \$150,000 and \$200,000, and Uruguay approximately \$75,000 on buildings and exhibits. Both countries have appointed Exposition commissions according to Major O. J. Keatinge, Director of Foreign Participation for the Exposition.

## Filipino Band Coming

The Commonwealth of the Philippines has appropriated \$1,000,000 for Exposition purposes, more than \$600,000 of which is to be expended on that country's pavilion and exhibit at the Pageant of the Pacific. President Manuel Quezon has communicated to Leland W. Cutler, Exposition President, his intention to send the Philippine Constabulary Band, 100 strong, to San Francisco for the 288 days of the World's Fair.

Governor General Jules Brevie of French Indo-China has announced that in the Indo-Chinese building will be shown native craftsmen, such as lacemakers, embroiderers, and jewel artisans. He also plans to bring to visitors a full visualization of Indo-China's fauna and flora, ancient monuments and landscapes.

## Feudal Castle

Latest developments on Japanese participation indicate that that country's exhibit will cover more than an acre. Japan plans as one of its buildings an ancient feudal castle. A Samurai's home will also be built, and arched Japanese bridges will span a picturesque lagoon. More than 100 Japanese craftsmen, carpenters, and gardeners will be brought to Treasure Island from Japan to make ready the Japanese buildings and exhibits.

On one of the huge murals for the 1939 Golden Gate International Exposition will be one of the Beautitudes from the Sermon on the Mount, ninth verse, fifth chapter of Matthew, which reads: "Blessed are the peacemakers; for they shall be called the children of God."

## SELLS INTEREST

Gerald J. Murphy, well known Albany businessman, who today sold his interest in the Murphy Chevrolet Company, to A. D. Hackim. Murphy, accompanied by his wife and children, will make an extensive vacation tour of California.

## Hayward and Richmond Bus Line Consolidates

Service through Downtown Oakland will be rerouted as follows: Routes 80-81-82-83 operate on bound to Hayward points from 13th and Clay Streets via 11th Street.

Routes 72 and 73 operate on bound to Richmond points from 11th and Washington Streets via 11th Street, Clay Street and San Pablo Avenue.

Under the consolidation plan Lundberg said, motor coaches will operate from Richmond to Hayward direct.
